

Quick Labels

Your Inventory – Your Part Numbers

Receiving made simple

Imagine what your staff could achieve if there were fewer steps in their receiving process. Quick Labels from Summit can help you find that extra time. With Quick Labels, the parts you receive from Summit are already barcoded to your specifications and ready for inventory.

- **Simplified Receiving** – Skip the tedious translation between manufacturer's and your part numbers. Quick Labels shortens your receiving and inventory processes.
- **Streamline Your Supply Chain** – From ordering to inventory, using Quick Labels accelerates your supply chain because you've minimized part discrepancies while reducing material handling time.
- **Accelerate Just-In-Time (JIT) Supply** – With the time you saved using Quick Labels, you can take Just-In-Time Supply management to the next level without losing process control.

See what Summit's Quick Labels can do for your supply chain. Call your local Summit Account Manager or email solutions@summit.com today to get started.
